INTERVENTION BY LEAGUE OF NATIONS URGED TO PREVENT DECLARATION OF WAR

PARIS, Sept. 7.—The Polish note to the League of Nations asking it to mediate in the Polish-Lithuanian dispute, which was issued when the Polish armies were retreating before the Russians, has been accepted. The government concluded an agreement with the Soviet government at Moscow on Saturday, and the Soviets made use of Lithuanian territory for its armament, and the establishment of a military base there. The note, however, was a broad neutrality. The note said:

"Later, when the Polish armies were forced to withdraw from Lithuania, they, as far as possible, left the territory, as awarded by the League of Nations, to the Soviets. By the supreme council on Dec. 1, 1918, the Polish army had occupied the evacuated territory and committed excesses toward the population. The Polish government, however, had withdrawn. The Polish invasion was repulsed, and the Lithuanian government sent a note to the Polish government, asking that the frontiers be restored to the lines fixed by the summer conference, and calling the Poles to return to their lines in Lithuania."

CORK, Sept. 7.—This is the 28th day since the eleven hunger strikers in Cork jail refused food. Sean Hennessy, 19 years old, of Ballyfermot, Limerick, and Timmy Donavan, 21, of Ennis, Limerick, are said to be suffering severely. Hennessy, with blood poisoning of the leg and Donavan with an abscess of the mouth. Since Thursday last, when the prisoners refused to permit the jail doctor to visit them, they have had no medical attention being cared for by nuns day and night.

A fortnight ago the prisoners refused to take even water, asserting that the prison officials were putting stimulants into the water, and they thirsted as well as starved until the nuns appeared and gave them water with their own hands.

HAPSBURGS ARE FORCED TO WORK FOR LIVING NOW

GENEVA, Sept. 7.—Eighty members of the Hapsburg family are in great financial distress, according to a report in the Vienna "Neue Freie Presse." They are said to be a visitor to today in Pragence, where they are staying in the Hotel Europa, and are reported to be living there. They are chiefly Archdukes, Archduchesses and their spouses. Their incomes have stopped and they have also suffered great loss.

The Hapsburgs have been forced to accept situations in order to become governors and others becoming counts. The archdukes are entering business as junior clerks.

THE POLISH SHEDDING BLOOD

The Polish forces have tried three times to avoid battle, and on Sept. 4, after a detachment of Polish cavalry occupying Silesia was attacked by the Germans, the Polish army evacuated the town, losing four dead. The Lithuanian army then occupied Silesia, and the Poles have withdrawn without declaring war. It was assumed that the Polish troops co-operated with the Lithuanians.

The Polish government was thus faced with the task of fighting from Lithuania. There is no doubt power would be given to Lithuania with all the strength available, and the Lithuanian government has become the chief force in the country. Owing to the fraternal relations existing between the Polish and Lithuanian peoples, the Polish government would be compelled to use arms only with great reluctance.

SOLO AND MOYLE WERE SLAIN

The Polish forces have taken all measures to prevent any contact between themselves and the German forces. It will avoid battle as long as the strategic situation permits.

On the other hand, created by the concentration of Bolsheviks in the capital, under progress, the Polish government will consider itself entirely free to protect itself against Bolshevik operations in free Polish territory.

The Polish government has taken every measure to prevent any contact between themselves and the German forces. It will avoid battle as long as the strategic situation permits.

H. W. HARMON WINS FIRST PRIZE; THREE TIED FOR SECOND PLACE IN O. C. FOOTBALL COMPETITION

C. P. R. Man Forecasts Thirteen Out of Fifteen Games Correctly—G. Roberts, D. Collier and A. M. Baker Tied in Second Place With Eleven Correct Forecasts—First Competition Was Good

The first weekly results of the big baseball football competition are published today, and show some interesting forecasts. Entries were received from over 100 persons in Canada and as far south as California. However, the majority of the entries have been received from the West, where it is a sure bet that the weather will continue to move a great winter pastime for the many hardy souls who have moved there and will stay.

H. W. Harmon Wins

The first place winner of the week was won by H. W. Harmon, who has been with the Canadian Pacific for over 10 years. He has a record of thirteen correct forecasts out of fifteen games. This is the most extensive record in the competition after the football competitions in the city of Calgary, in which he has had him in good stead now. He has expressed his desire to continue all the results and intends to continue all during the winter competing for the best record in the competition.

Second and Third Combinations

Second and third prizes owing to the fact that many people tied for the first place have been awarded, and among this number is the well known George Roberts, who has a record of nine correct forecasts out of fifteen games. This is the second best record in the competition.

Fourth Prize Division

An equally interesting division in the fourth prize, and another well known name came in President G. M. Baker, who has a record of eight correct forecasts.

John D. Collier, of the east, also appears in this section.

Van. George L. Smith, of the west, made a record of seven correct forecasts, while Scotty Lang had six excellent forecasts in the competition.

The following are the complete results:
